

**TRAINING WOMEN TO BUILD SUSTAINABLE BUSINESSES**

**HOPE**

Get HOPE Global

# Who We Are

Women in developing countries face unique challenges due to violence, limited opportunity, hopelessness and isolation.

Get HOPE Global offers practical help through faith-based business training and microloans to give women a chance to discover their true potential.

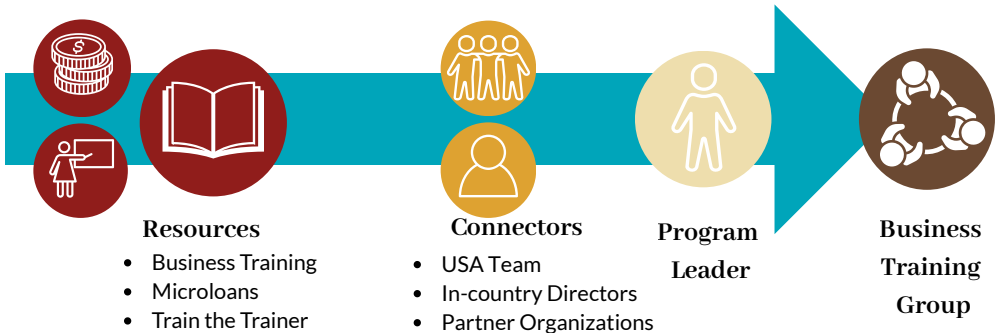

# What We Do

We partner with organizations, churches, vocational schools, secondary schools, rescue centers, orphanages, and individual global workers or national leaders. We equip these partners with resources and support.

Our programs are life-changing tools to bring hope and transform women's lives in the developing world.

# The HOPE Training Process

# Our Sustainable Business Programs Offer

**Practical tools** designed for use in low and middle-income countries  
**Comprehensive, instructor-friendly materials** requiring no business or teaching experience

**Culturally adaptable, story-based lessons**

**Faith-based curriculum**

**Formats that are easy to access and download**

***Train the Trainer* resources**

**Microloan program support**

## Meet Regina, a Program Participant

Regina, a certified early childhood educator, worked as a childcare teacher for seven years before being laid off. When she realized she wanted to start her own daycare, she joined Get HOPE Global's program to gain essential skills and establish community with other women in business. She has since opened her own daycare to support children in her community while their parents work.
