From the Marketing Coordinator

An introduction from the newest member of our Get HOPE Global staff

My name is Cassie. I have spent many years working with refugees in Africa and the Middle East. While I was living in Egypt, a woman came to my door every Friday asking for food, clothing and money. I would often give her whatever I could, but no matter what I gave her, she would always be back the next week. I wanted a better way to help women like her not just survive another week, but actually find their purpose and thrive. I was thrilled when I heard about Get HOPE Global because the impact is so much deeper than simply providing temporary relief. Last year I got the chance to travel with HOPE to Uganda and Tanzania. We trained leaders in our business curriculum and visited women who had thriving businesses as a result of going through one of our programs. It was such an honor to see their smiles!

I love being able to use social media to share the heart behind who we are and what we do. I get to invite others to celebrate with us as we see God moving in new and incredible ways. That invitation extends to you! Follow us on Facebook, Instagram and LinkedIn. We share personal stories, exciting news, quotes, and reasons why we do what we do.

*Cassie Kimbriel
GHG Marketing Coordinator*

Recent Translation

Our latest curriculum translation is in the beautiful language of Hindi, one of the 22 official languages of India. This important project was completed in collaboration with our ministry partner, Tizrah International, and features photos of some of our HOPE women on the cover. We are pleased to offer this Hindi version of the HOPE Business Program - Starting and Growing Your Business to all of our curriculum license owners.

Thanks to a special donor, our curriculum has now been translated into 8 foreign languages!

Project Connect

In this next season we are focusing our efforts on connection through the aptly named **Project Connect**.

Phase one of **Project Connect** is already in motion. We have invited Alex and Rehema from Tanzania to come to Colorado and share their story of HOPE! Alex is our Regional Director in Tanzania and will come with reports and photos from the field. He met his lovely wife, Rehema, through the HOPE program. We are excited to share their story with you in person!

Project Connect

WHERE GLOBAL AND LOCAL WILL MEET

Project Connect: Prayer

There are many details and hurdles involved in traveling from Tanzania as a visitor to the US. Please be praying as Alex and Rehema continue the process of preparing for their visit.

- For their travel visas to be approved upon their initial application
- For our trust in God's timing of their visit
- For care for their two young daughters while the family is apart
- For travel expenses to be met

Watch for updated announcements and ways to get involved with this exciting event!

Tanzania Fast Facts

- Over 25% percent of Taznania is set aside as national park land.
- Mount Kilimanjaro, the tallest mountain in Africa, is the highest freestanding mountain in the world.
- Tanzania is home to people from at least 120 different tribes, and over 120 languages are spoken. The official language is Swahili.
- The Nile River originates in Tanzania's Lake Victoria, the world's second-largest freshwater lake.
- Tanzanian exports include gold, coffee, cashew nuts, and cotton.
- Mwanza, Tanzania is the location of Get HOPE Globa's largest business training and microloan program.

Mission Connexion SW Conference

The **Mission Connexion SW** conference in Chandler, AZ was a great place to meet other ministry leaders, introduce our programs, and be inspired!

Look for the HOPE booth at upcoming events in 2023:

- **Missio Nexus** in Orlando, Sep. 27-29
- **International Conference on Missions**, Oklahoma City, Nov. 15-19

In Her Own Words: Angelina in Zimbabwe

"God is not as far as we thought, He hears us and responds to our needs at the appropriate time. Just before my son drops out of school, God brought this project to life to hold my son there" ~Angelina

Angelina is one of the women we recently highlighted as a Woman of the Week. She is connected to HOPE through one of our partner organizations, Tirzah International. Her story is an encouraging testimony of how God's hope is spreading around the world to touch individual women's lives.

Angelina always wanted to be a professional business woman who could earn her own money. She was born in Gokwe, a place where people do not value education highly, especially education for girls. She did not go far in school and got married at a young age. Her husband was not educated either. Fortunately he worked in a workshop where grinding mills are manufactured and was able to learn how to make one. Angelina's community depended

on farming and grinding nuts as a way of life. She learned how to use a grinding stone to produce peanut butter. She wanted to make peanut butter to sell in town but she could not produce enough with the tools she had, so she shared her ideas with her husband. He was very supportive and made her a bigger machine to increase her production capacity. The machine and the ideas were there but there was no money to buy the peanuts to start the business. She doubted that her son would be able to complete university, but then she joined a HOPE group. Now she is confident that, through the peanut butter business, there will be enough money for her son's education.

She is excited to see the potential in her business and attributes it all to God.
